“ Hello, my name is Katelyn Renk I am Cynthia's first grandchild. She touched my heart in a special way because of the person she was and the love that she radiated. She was special to many people, but she played an important role in shaping who I am. She made me more selfless and taught me how to be giving. She always asked me to cut her hair when I came over she also would love to listen to all the crazy stories I made up when I was little. There are so many things I would have loved to told her before she passed like “I love you” or “i’ll always love you” but unfortunately I can’t. God has decided to take her from me and my family but i’m glad she is with him and she is no longer suffering. If you personally knew Cynthia you knew how much she loved each person in her life. The way my grandmother lived her life has changed me: I aim to be as loving to others as she was to me. In this way, her spirit lives on through me.
