“ *My dear cousin Lawrence so many memories visits from your family as kids giving his mom rides in the horse carriage till she screamed and he would laugh. He always came with some new toy like a sling shot us girls could not use but we had to collect rocks for him. Then year later polker game with pennies that ended in a walk to the crick with road covered of fresh hatched tadpoles. He could get enough of them. City boy at the crick...so much of this. That joy of life never changed and we always had many laughs in the room together. Later to calm him sitting with a beer and cigars to a sweet chat at my wedding in July 2016 you said you would not have missed for anything.. always in my heart..gone to soon..*

“ *Larry was a friend and my neighbor for over 20 years. I will miss seeing him in his shorts and sweater when winter comes around and we are bundled from head to toe. He loved talking about racing with the boys and their bikes. He poured everything he had for them to race on the weekends. He loved his dogs. Most importantly, he loved his family. Rest in peace!*

“ Cindy, I'm very saddened to hear of Larry's passing. I hope that as you and your family cherish the memories and the time you had with him, and you all spend time together, that it helps you get through this difficult time. I remember going on a double date with you guys just after you started dating--when we were still in our teens!--and have good memories of time spent with Larry in (and outside) of school, riding BMX bikes (and him riding and working on his motorcycle, too). His parents were always very cool, and I remember his mom would pack his jacket with snacks each day due to his diabetic condition, and he would share his buttered mini-bagels with me (and others) at recess. I'll always remember his mom chaperoning on class trips in grammar school . . . after he did or said something embarrassing, his mom would get bug-eyed and yell, "Lawrence!" He is too young to be gone. Wishing you well, and big hugs to you and your family.
