“ *Danny and Mario, You both know how much your mom meant to me. Being her hairdresser for years we had many talks about everything. We laughed together, ate together, cried together and even gambled together. Your mom was one of the greatest teachers I ever met and I know a lot of them for working in a school district for 34 years. She had my son in third grade and to this day he will say she was his favorite teacher. I enjoyed our visits when I came to the house to do her hair. I do have to say that you guys were the best sons and don't have to have any regrets because your mom was very proud of both of you. I am praying that the beautiful memories you have of your mom give you both comfort. God Bless you both!*
